

Available Stressless® Fabric & Leather qualities

As a leading premium furniture manufacturer, we take responsibility seriously. Our leather complies with animal welfare, health, safety, and environmental standards. All upholstery fabrics meet or exceed mobelfakta.no Hard Wear requirements, passing international tests for durability, light fastness, pilling resistance, fire safety, and color fastness. For full fabric specifications, visit stressless.com.

ASTER is a sustainable fabric, made entirely from recycled materials. The woven structure creates a lively surface which feels gentle and soft to the skin.

Composition: 100% polyester – recycled.

Durability (Martindale): 60,000.

Light fastness: 5.

CALIDO is a wool fabric with an exclusive look and feels comfortable and soft next to your skin. The fabric is available in a diverse and exclusive color palette. Wool is a natural fiber that breathes, making it feel warm when it is cold and cool when it is hot.

Composition: 80% wool, 20% polyamide.

Durability (Martindale): 80,000.

Light fastness: 5.

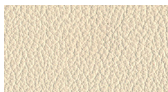

DAISY is an exceptionally soft and comfortable fabric made from recycled bottles. Daisy is a good choice if you are looking for a sustainable and strong fabric with a soft touch and easy maintenance.

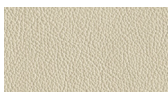

Composition: 100% polyester – recycled.

Durability (Martindale): 40,000.

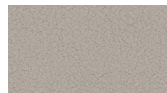

Light fastness: 5.

BATICK LEATHER is a corrected, pigment-improved and grain-embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone color effect to liven up the surface. Batick is resistant to fading, although changes in color will occur over time with use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent utilisation properties and a favourable price make Batick a good choice.

NOBLESSE LEATHER is the most exclusive leather quality offered by Ekornes. It is a full grain semi-aniline, which means that it is dyed all the way through and has only a thin protective topcoat. This allows the leather to keep the natural softness and luster that characterizes a first-class furniture leather.

DINAMICA is a well-known micro fibre-quality fabric, with an appearance that resembles suede leather. It is soft and very comfortable, breathable and non-static. Easy to keep clean and highly wear resistant.

Composition: 90% polyester, 10% polyurethane - 73% recycled polyester

Durability (Martindale): 100,000.

Light fastness: 5.

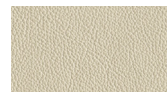

LILLY is a plush, soft chenille with lasting durability and comfort. Produced in Europe, utilizing a high percentage of recycled materials, Lilly is a sustainable choice with a sumptuous and contemporary weave.

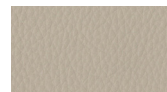

Composition: 94% polypropylene, 6% polyester – recycled fibres in polypropylene.

Durability (Martindale): 60,000.

Light fastness: 5.

PALOMA LEATHER is a slightly corrected leather with a combination of dyes and pigments that smoothes some of the leather's structure (grain pattern). However, the grain structure of Paloma may vary slightly at some parts of the furniture, and minor color nuances may also occur. Natural marks, scars and insect bites remain and will appear in Paloma. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy-duty quality and protection as Batick. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

VELARO LEATHER is a sophisticated, elegant leather with a natural finish and a silky touch. It is dyed through, with a natural surface that is only slightly corrected and lightly coated. Although robust, this leather remains very soft and sumptuous to the touch.
